

Alpha Rising: UBS Senior Vice-President On How Social Impact Investing Really Can Make You Money

Admin User · September 30, 2018

Only 12% of US investors have sustainable investments in their portfolio today. Over the next five years, UBS expects that number to increase to 58%. So now may be the time to get in. We [...]

Only 12% of US investors have sustainable investments in their portfolio today. Over the next five years, UBS expects that number to increase to 58%. So now may be the time to get in. We talked with UBS SVP Kathy Entwistle about what exactly social impact investing is and why millennials and the wealthy already are jumping in.
