Free App Empowers Medicare Beneficiaries to Make Informed Coverage Decisions

(Boston, MA — November 10, 2025) — FinStream Inc. is proud to announce the launch of its Medicare Annual Notice of Change (ANOC) Evaluation Application, available free at <https://www.finstream.tv/anoc>. The platform is designed to help millions of Medicare beneficiaries nationwide understand the changes to their Medicare Advantage and Part D plans that will take effect in the coming year, link: <https://www.medicare.gov/basics/forms-publications-mailings/mailings/costs-and-coverage/upcoming-plan-changes>

Each fall, Medicare enrollees receive the Annual Notice of Change (ANOC), which details crucial updates to plan costs, benefits, provider networks, and prescription drug coverage, effective January 1. With industry-wide adjustments anticipated for 2026, including dropped plans and changes to formularies, prompt evaluation of the ANOC is essential. Failing to review these notices can result in higher out-of-pocket costs and loss of access to preferred providers or medications, link: <https://nrln.org/2025/10/watch-for-your-medicare-annual-notice-of-change/>

FinStream's web application offers a step-by-step guide to interpreting the ANOC, personalized plan comparisons, and actionable recommendations for beneficiaries preparing for the Medicare Annual Enrollment Period, running October 15 through December 7. The tool empowers users to weigh their options, avoid costly surprises, and confidently select coverage that matches their healthcare needs in 2026.

"Our mission is to demystify Medicare communications so beneficiaries can protect their

health and finances,” said Bob Powell, Co-Founder of FinStream. “This application simplifies a process that can feel overwhelming and ensures seniors receive the information they need to make informed choices during open enrollment.”

For additional support and unbiased guidance, users are encouraged to consult State Health Insurance Assistance Programs (SHIPs), Medicare.gov, or the 1-800-MEDICARE helpline.
